EU Type Examination Certificate

No. CE 792459

Technical Specification: European Standard: EN 149:2001+A1:2009 –
Respiratory protective devices – Filtering half masks to protect against particles.

Product Description: The particulate respirators are 'cup style' products designed to protect against solid particles. The letter V in the model identification indicates the model incorporates an exhalation valve.
All models are single shift devices, denoted by the classification symbol NR.
Models with the V suffix have the same design of exhalation valve.
The masks are held in place by a pair of elasticated head straps. All ranges are classified as both FFP1 and FFP2.
The 270-PM032-V model makes use of the same filter media and the same design of nose clip and head straps. The 270-PM032-V incorporates a velvet nose seal. The V suffix indicates the models include an exhalation valve of the same design. The mask is held in place by a pair of elasticated head straps with 'pull-through' adjusters. Classified as FFP3.

Certificate Administration Details

Products initially approved on BSI Certificate: CE 687723
